1375. SHRI PARAG CHALIHA: Will the MINISTER OF SCIENCE AND TECHNOLOGY be pleased to state:

(a) the steps taken/contemplated by the Ministry of Science and Technology to popularise science eudcation and scientific attitude among school children; and

(b) what are the details of the achievement levels attained as yet?

THE MINISTER OF STATE OF THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION AND MINISTER OF STATE FOR MINISTRY OF SCIENCE AND TECHNOLOGY (SHRI YOGINDER K. ALAGH): (a) A number of steps have been taken for popularisation of science and technology and nurturing scientific temper among people including school children. These include organising science festivals, science writing, quiz competition, drawing and painting competition, exhibitions, campaign for green environment, telescope making workshops, nature study camps, Annual Children Science Congress and NATIONAL science Day. The School Children are provided excess to low cost science learning aids and experiments demonstrating science behind miracles. Besides, a large number of competitions among school children and publications of "Emergence of Modern Science" are also envisaged during the coming year.

(b) It has been possible to reach a large population of children through these programmes. Children's participation in the Annual National Children Science Congress has been of the order of 2.5—3.5 lakhs. Nearly 1.40 lakh school children registered as listeners for the 13 part radio serial "Vigyan Vidhi". Over 1 lakh students and 10,000 schools registered as listeners for the 144-part radio serial "Manav Ka Vikas". These serials were produced in 18 Indian languages and broadcast by all stations of All India Radio. A large number of children throughout the country participated in competitions organised as part of the

'Eclipse' 1995 project and TV quiz "Kudaratnama" telescope making workshops and other workshops on low cost learning aids. Origami and explaining science behind miracles. 25 popular science books have been translated in regional languages for children. Popular science magazines like Vigyan Pragati (in Hindi), Science Reporter (in English) and Science Ki Duniya (in Urdu) are also being widely used by children. About 75 children have also received fellowships from the Department of Biotechnology for pursuing higher studies in Biology.
